

# CheckNumber

March 28, 2020

## 0.1 Python Program to Check if a Number is Positive, Negative or 0

```
[2]: num = float(input("enter any number: "))  
  
if num > 0:  
    print("+ve number")  
  
elif num < 0:  
    print("-ve number")  
  
else:  
    print("Zero")
```

```
enter any number: 23  
+ve number
```
